- user: Read the on-screen text using OCR. Then transcribe the video
- assistant: Transcript: Meet Angie. Hi, my name is Angie and I'm a master of many skills. Angie is so interesting I have to tell you her story in a list format. She's a professional car racer. She only started last year and last week she won first place in the Ferrari challenge. She's all about cars. She knows how to fix cars, design cars, drift cars, and she owns more than 20 cars. And I can also fly helicopter. This Corvette, she design, build, and assemble. This McLaren, she's rebuilding from scratch. A...
- user: Summary

- assistant: Created PPTX.
- user: Summarize our discussion so far and generate a PDF report.

Transcript Summary

Meet Angie. Hi, my name is Angie and I'm a master of many skills. Angie is so interesting I have to tell you her story in a list format. She's a professional car racer. She only started last year and last week she won first place in the Ferrari challenge. She's all about cars. She knows how to fix cars, design cars, drift cars, and she owns more than 20 cars. And I can also fly helicopter. This Corvette, she design, build, and assemble. This McLaren, she's rebuilding from scratch. All of this, she says makes me happy. By age 15 though, she got a girl pregnant. And by age 20, she got herself in 7 Neo-Dexidents. But I'm still here after 37 years. Now she manages one restaurant, five hotels, and has 17 tattoos. All of this is interesting. But what's even more interesting is that Angie used to be a man. But more of that later. That's a minute, see you tomorrow.
